Therapy

Monkey by Jenx

A simple and highly adjustable standing system, that provides Prone to Upright positioning for children from 9 months to 4 years old.

Key features

- Angle adjustable from 20° prone to 90° upright
- Tool-free adjustments for quick growth adjustments

Age range: 9 months to 4 years
Chest height: 20" - 29½"
Max user weight: 121.5lbs

Always Supportive...

Monkey by Jenx

Specifically designed to appeal to young children and their families, the Jenx Monkey is an ideal introduction to standing.

Providing smooth and easy angle adjustment, even with the child in the product, the Monkey can go from upright at 90° right down to 20° prone – perfect for gradually building tolerance to standing as part of a therapy program. The capacity for outstanding thoracic and pelvic support coupled with flexible leg positioning make the Monkey prone stander a great option for almost every child.

INNOVATIVE FEATURE

Incorporated de-rotational Thoracic and Pelvic Straps, with Lateral Support Pads

Available in different sizes and styles these support pads offer lateral stability and come with a support strap which enables corrective positioning and security.

INNOVATIVE FEATURE

Integral Angle Adjustable Tray

Provided as standard, with both bowl and smooth tray infill for a wide variety of different activities.

NB: Image represented without the bowl.

INNOVATIVE FEATURE

Smooth & Simple Angle Adjustment

Angle can be adjusted with the child in the standing frame. Tool free adjustments.

INNOVATIVE FEATURE

Flexible Growth

The chest and hip boards can be independently altered and fixed allowing you to accommodate the exact proportions of each child.

INNOVATIVE FEATURE

Removable Abduction Block

Provided as standard to help create and support an abducted standing posture.

INNOVATIVE FEATURE

PU Support Pads

Easy to clean and keep hygienic, they also contain an antimicrobial agent. The support pads are provided as standard for knees, hips and chest, and are independently adjustable for height, width and angle, giving support in just the right places for every child.

INNOVATIVE FEATURE

Independently Adjustable Thoracic and Pelvic Boards

Allowing each individual child to be catered for while also giving scope to avoid pressure on delicate areas such as feeding buttons.

Always Encouraging...

Every position a child adopts has an effect on their development and functional movement now and in the future.

Improves blood pressure & circulation

Helps digestion, bowel & bladder emptying

Encourages bone & muscle development

Assists freedom to explore & participate

Aids respiration & speech

Helps relieve pressure created during sitting

Supports pelvis, thighs & feet so children can join in everyday activity

Provides new independence & increases social skills

Children gain huge psychological benefits from standing, as well as important physical and development changes.

Maximum height

Monkey Frame

Monkey Frame

Comes complete with:

- Chest, hip and leg support boards
- Adjustable chest, hip and leg positioning pads
- Chest and hip straps
- Integrated angle adjustable tray with bowl
- Footboard
- Size 1 sandals - 6¾"(d) x 3¼"(w)
- 4 lockable, swivel casters

NR-50

Always Configurable Accessories

Grab Bar

Perfect for children who need to fix one hand to increase functionally and stabilize their shoulder girdle to aid in head support development.

NT04 7¼"(l) x 2¾"(d) x 3¾"(w)

Activity Frame

Great for encouraging head control and hand/eye co-ordination. Easy to attach and adjust. Comes with two clips for attaching toys or other items.

GT10
13¾"(w) x 21½"(w)

Sandals

Available in 2 different sizes to accommodate any size of foot, even when wearing splints, Jenx sandals are interchangeable across the entire range of Jenx seating and standing products.

NB: Monkey comes with size 1 sandals as standard – larger children or children wearing splints may find size 2 sandals more appropriate.

Size 2 S2 8½"(d) x 3¾"(w)

Sandal Raising Blocks

The raising block kits give the sandals that extra bit of height where needed! Use 1 set to accommodate for leg length discrepancy or use 2 sets to raise the height of the footplate on any product to maximize the available growth. Each block adds 0.7" to the sandal.

NB: One kit needed per individual sandal. Cannot be used when Monkey is on its minimum height setting

Sandal Risers size 1 SRB1 6¾"(d) x 3¼"(w)
Sandal Risers size 2 SRB2 8½"(d) x 3¾"(w)
