Multistander by Jenx

A highly versatile standing frame suitable for children from around 9 months up to 6 years, standing in prone, supine or upright.

An unrivaled amount of adjustment for height and width and a maximum user weight of 77lbs on the size 1 make the Multistander the perfect choice for growing children. Smooth and easy to operate angle adjustment takes the Multistander from horizontal right through to a natural standing position of just off upright. A wide variety of head, trunk, leg and foot support options allow you to exactly customize the Multistander to any individual user. The capacity for outstanding thoracic and pelvic support, coupled with highly adjustable leg positioning options, make the Multistander a great option for almost every child. If you need flexibility, the Jenx Multistander has it!

INNOVATIVE FEATURE

Independently Adjustable Thoracic and Pelvic Boards

Allowing the individual proportions of each specific child to be catered for, while also giving scope to avoid pressure on delicate areas such as feeding buttons

INNOVATIVE FEATURE

Incorporated de-rotational Thoracic and Pelvic Straps with Lateral Support Pads

Available in different sizes and styles these support pads offer lateral stability and come with a support strap which enables corrective positioning and security.

INNOVATIVE FEATURE

Smooth & Simple Angle Adjustment

Angle can be adjusted with the child in the standing frame, and is easily set using the angle gauge on the frame.

INNOVATIVE FEATURE

PU Support Pads

Flexible, easy to clean, impervious to fluids and with an antimicrobial agent, the PU boards and support pads make the Multistander simple to clean and keep hygienic. They also come in a range of vibrant colors to suit all tastes.

INNOVATIVE FEATURE

Knee blocks

Available in two sizes and provided with specially designed straps, the Multistander knee blocks are independently adjustable for height, width, depth and angle allowing you to precisely position the knees of every child.

Multistander Frame

Comes complete with:

- Base with 4 lockable swivel casters
- PU chest & hip boards
- Knee block mounting brackets*
- Angle adjustable footplate

*NB. Knee blocks must be specified separately. Available in Blue, Pink, Green, Red boards

INNOVATIVE FEATURE

Innovative Prone/Supine Adjustable Tray

Thoughtfully designed to work effectively in both prone and supine, this universal tray addresses many of the issues reported when using 3:1 standing frames. Clever inbuilt adjustments prevent gaps for arm traps while the included overlay ensures a perfect fit when used in prone.

Multistander Abduction by Jenx

INNOVATIVE FEATURE

Individual Leg Abduction

The abduction option allows up to 30° of individual leg abduction in 5° increments.

The Abduction Accessory has been designed to allow peer height interaction with the child standing close to floor height.

INNOVATIVE FEATURE

Angle Adjustment

The frame angle can be adjusted by a smooth gas strut assisted mechanism with the user in the stander. Setting the desired angle is easy using the angle gauge on the frame. When used in supine, the frame can be adjusted to horizontal to aid with transfers.
