journeys
start with
daytot

daytot

Daytot develops life-enhancing products aimed at improving the developmental outcomes for babies with delayed development.

We are a company with heart, using innovation and research to create and introduce developmental products into a baby's daily routine from day one. Working with the best minds in the world, we collaborate through research & design, to unlock new insights and create groundbreaking products, to support babies in achieving milestones with comfort and purpose.

Creating a supportive community for Parents & Professionals

In the same way that you're there for them, we're here for you. We are devoted to the lives of the babies and parents we help, going beyond the functionality of our products.

Join Our Community

Come and join our supportive community where knowledge, advice and optimism are shared generously **#Tottalk**

daytot joey
For all their
little journeys

daytot joey

Joey is an early intervention crawler, designed to help babies at risk of developmental delay build the all-important foundations for their future physical and cognitive development.

Designed to facilitate hands-on training of reciprocal (crawling) movement, Joey promotes tummy time and movement – important floor-centred activities for building muscle strength, balance, coordination, and head control.

*Fabric options
– soft fabric
+ wipe clean vinyl*

(Recommended accessory)

Available in 2 sizes – (0-2) and (2-6+) months

Size guide

Size	Max Weight	Age Range (Approx.)
Size 1	5kg / 11lbs	0–2 months
Size 2	10kg / 22lbs	2–6+ Months

Backed by years of clinical research

daytot neo+

Supporting them from day one

daytot neo+

Neo+ is a positioning support for infants who have delay in their development and require supportive positioning to strengthen their core, improve their patterns of movement +/- or assist access to their environment.

Co-created with healthcare professionals, this mouldable support can be individually tailored for supervised lounging, playtime, and integrated into your child's therapy programme.

Facilitates key therapeutic positions for early intervention use.

Back lying (supine)

Tummy lying (prone)

Side Lying

PRODUCT FEATURES

- Promotes central core strength, symmetry, and development.
- One size, with unique moulding ability to maintain its form until reshaped by the caregiver.

Neo+ bundle (one size - incl. 2x covers, base cushion, pump and tote bag)

Size guide

Max Weight	Age Range (Approx.)
15kg / 33lbs	0-18 months

daytot activity mat

The Remarkable Part

daytot activity mat

The use of tummy time mats for new-borns can have a positive impact on your child's overall physical development.

Research shows that the use of high contrasting colours, such as black & white shapes scaled to a specific ratio, supports visual & cognitive development, and stimulates quadrupedal (four-footed) movement in new-borns – the building blocks for learning to crawl.

The Daytot Activity Mat provides Joey users with a suitable non-slip surface. And, when used barefoot, can provide sensory stimulation, enhancing the connection between the foot and the brain.

Plus! Its multipurpose design makes it perfect for tummy time, play and family activities!

Size guide

Daytot Activity Mat is available in one size only. Suitable for infants from new-born.

Length	Width	Thickness
1380mm / 72"	800mm / 31.5"	3mm
