Krabat Pirat

Krabat Pirat is a floating aid that gives the child new opportunities to be independent in the water and that stimulates the child's self-activity.

Allows the child to be active and provides good opportunities for interaction with other children and adults.

AWARD FOR DESIGN EXCELLENCE
NORWEGIAN DESIGN COUNCIL

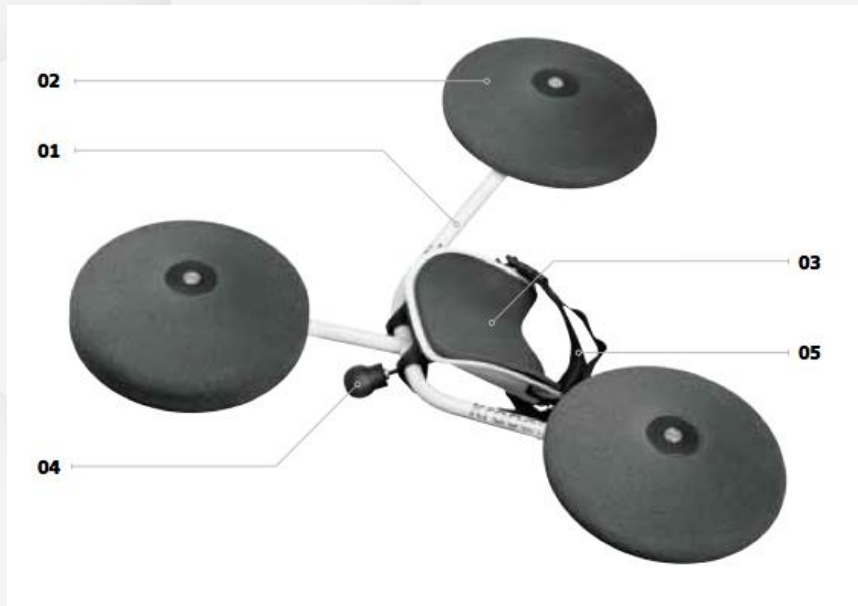

Krabat Pirat

Krabat Pirat has been developed with the idea of giving children the feeling of joy, progression and mastering. The floating aid is suitable for children at all levels of functioning.
