Each Safespace Cosyfit is custom fabricated. The image above is an example of multiple custom selections.

Safespace Cosyfit

The Cosyfit is designed for individuals with limited mobility & is robust enough for adults & children who may rock, thrash about, push or kick, but can be disassembled for storage and transit. For those with the ability to stand, walk, pull to standing or climb, we usually recommend the Safespace. The Cosyfit also creates a safe environment for those who may otherwise be restricted to a wheelchair. Multiple mattress sizes and wall heights available, however the most popular Cosyfit is the Single Bed, Standard Length with 58" Tall Walls. E1399**

ONE selection from the below right is required
