Each Safespace Siesta is custom fabricated. The image above is an example of multiple custom selections.

Safespace Siesta

The Siesta is designed for those who may have a lot of movement and strength, but are unable or disinclined to pull up or climb over the high sides. The fully customizable design makes it suitable for those with complex or varying nursing needs & those requiring a mechanical lift. Its robust 'flex-out' sides can be kicked, punched, head-butted or rocked against, & help keep a person safe from injuries & from falling against hard surfaces, for example during seizures. E1399**

AI 71 \$25,920 Safespace Siesta with standard mattress with PVC cover, main zip opening w/ viewing panel. Solid back wall. Viewing panel in head and foot end, water resistant floor seams. Configuration selections required below.
