Key Features:
- ❖ Secure and adjustable 5-point harness
- ❖ Machine washable covers
- ❖ Moves 360 degrees in any direction.
- ❖ Soft detachable bibs
- ❖ Lightweight and stable

Joey is an early intervention crawler for infants with delayed development, who require supportive prone positioning.

For use during a baby's first year, Joey provides an opportunity to enhance motor development and can be integrated into your child's daily therapy program. Joey supports the baby, allowing them to move freely, while building the all-important foundations for their future physical and cognitive development.

Please complete this and send to Adaptive Imports by fax or email.
