Cosyfit Hi-Lo:

Designed for those who cannot stand, but who have the strength or capacity to rock, thrash, push, or kick and so need safer bed sides. It is used both at home as well as residential and care settings. The robust, yet soft, padded high sides provide protection for those at risk of falling out of bed or hurting themselves on hard bed surrounds and other hard surfaces. They are strong enough to withstand the pushing & kicking of most adults, as well as children. Electric bed functions for more complex care needs.

Contact sales@adaptiveimports.com to discuss and review individual specifications.

****Suggested HCPCs is E1399****

Mattress Size:	Dimensions:	Wall Height 48" 42" Internal	Wall Height 58" 52" Internal	Wall Height Over 58"
