Joey is an early intervention Prone Position Support for infants with delayed development, who require supportive prone positioning.

For use during a baby's first year, Joey provides an opportunity to enhance motor development and can be intergrated into your child's daily therapy program. Joey supports the baby, allowing them to move freely, while building the all-important foundations for their future physical and cognitive development.

Key Features:

- Secure and adjustable 5-point harness
- Machine washable covers
- Moves 360° in any direction
- Soft detachable bibs
- Lightweight and stable
