Safespace Voyager and Safespace Voyager Compact

Going away on vacation - or even a short visit - can seem like an impossible dream for many parents and caregivers struggling with behavioral difficulties and safety issues. The Voyager and Voyager Compact provide a safe, low-stimulation environment, in which a person can settle at night when away from home. The soft walls and floor mean there are no hard surfaces inside, reducing the risk of injury. Carers and family can relax - a real holiday for everyone.

Contact sales@adaptiveimports.com to discuss and review individual specifications.

Suggested HCPCs is E1399
